

Do they really care for our health - or are they driving us into Matrix / Orwell?

- **Misinformation**
PsyOps, propaganda, media
- **Okkult Manipulation**
"Magic", religions, symbols, media, manipulation of the spiritual field by black magic, ritual violence and ritualized forced measures

- **Vaccination**
Genom endangering DNA, RNA, aluminum, quicksilver, etc.
- **Labeling**
Quantum dots, implanted microchip, block chain, etc.
- **Implanted Microchip**
Direct manipulation of the free will by radio control / 5G
- **Complete Cyborg**
Complete external control

Point of no return?

Only the chicks are missing now!

"New World Order" or "Demo(n)kracy"?

Loss of spiritual existence / loss of autonomy / way into the matrix

Wo refuses going the way to the bottom, to him basic rights / living right should be violated -
- forcing humans into the matrix by salami-tactic / "the frog in hot water"!
(up from which phase are humans capable, to psychologically return to life and love?)

"A violent war is taking place in the background - between white and black

We stand on the edge and are looking to it
We are colorful
We live in love "

The loving connection to all dear people, animals and plants creates the "spiritual energy field", which can protect us from energetic parasites and slaves.

The mighty strive to implement the apocalypse, which culminates through the implanted microchip and worship (= serving) of their gods (and our spiritual death = matrix).

"Apocalypse" = their **plan** and no prophecy!

Breaking out of the "matrix" means going into love like Momo and thus to go back to life!

- **Without religions** - with connection to "father" through the heart and through the loving connection to all life...

Mental and physical survivors will save and rebuild the earth.

The occult power forces people **to choose** between going complete into the matrix or to complete **exit from civilization** into the wild.

Our loving Creator will miraculously protect and nourish the surviving in the "wilderness".

The universal **right to life** and the universal original right are above everything.

International law, maritime law, commercial law, constitutions, national laws -

- were created by humans and invariably go back to Roman law and Roman occult power systems!

By continually breaking even their own laws and fundamental human rights, the power elite has made all earthly rights obsolete!

We demand the respect of our right to life and our primordial right (we, the descendants of "Adam and Eve", were made "subject" to the earth)!

Occult "servants of God" have NO right to take them away and violate our right to life!

Our tasks could be:

- Gently and sensitively **awaken** our fellow human beings and warn of the "mark" (mental "zombification") and religions.
- "Eternal life" can only be found if you **avoid the "mark" and THE religion**. Religion = worship of gods - there is only one religion (apocalypse).
- Make **loving connection** to all love life.
- Securing one's own **survival, preparing** possible escape routes and locations, storing food (hunger as a means of pressure to submit to coercive measures has been adequately announced!)

Prepare with the purpose not to need it!
